INTRODUCTION.

WE take pleasure in submitting our SPRING LIST OF PRICES.

DRUGS—The first sixty-four pages are printed somewhat in the form of a price-book, so that changes in prices, which we shall endeavor to furnish from time to time, or other memoranda may be inserted on a line with each article. Through our representatives in the principal markets of the world, we possess superior advantages for the purchasing of our stocks; and our customers may rely upon receiving all the benefits of these.

CHEMICALS AND PHARMACEUTICALS.—We are happy to announce that the increased demand for our Pharmaceuticals has necessitated further extension of our laboratories. These products are quoted on pages 65 to 82, inclusive. Our GELATINE-COATED PILLS enjoy the preference of the medical and pharmaceutical professions generally; and their acknowledged merits of neatness, accuracy, and reliability, upon which their popularity rests, will be equally characteristic of all our other preparations. Particular attention is asked to our Fluid and Solid Extracts, Oleates (made with a carefully purified oleic acid, which insures freedom from odor and rancidity), Purified Granulated Salts, Pepsin (Saccharated and Concentrated), Warburg's Tincture (genuine and with Cinchonidine), Terebene, Cocaine Preparations, and a full line of requisites for the soda water fountain, including Pure Fruit Juices and Concentrated Essences.

DRUGGISTS' SUNDRIES, FANCY GOODS, &c.—We desire to call special attention to the changes and insertions on pages 136 to 145 in the price list of these departments. These have occurred since the issue of our general prices-current of 1883 for druggists' sundries, fancy goods, and surgical instruments. May we ask our friends who still hold a copy of this book to make corrections to correspond therewith?

Prominent among the additions please note VENNARD'S NONPAREIL PERFUMES, on pages 140 and 141.

We still have a few copies of our large illustrated catalogue, also of our general prices current of druggists' sundries, fancy goods, and surgical instruments, issue of 1883. To our friends who have not these books in their possession, we will cheerfully send them upon application.

SPONGES AND CHAMOIS.—We have agents at the chief sources of supply; and stock comprises varieties that cannot fail to please the most discriminating buyers. A special catalogue of these goods will be mailed gratis on application.

TERMS.—Prices will be subject to future market variations. Quotations for drugs, chemicals, proprietary articles, and sundries are *net*. ASSORTED INVOICES will be sold payable within 30 days, in New York, or interest will be charged at six per cent. per annum, after 30 days, and draft made payable at 60 days from date of shipment, unless otherwise arranged. A discount of one per cent. for cash will be allowed whenever remittance accompanies order. SPECIAL ORDERS for goods, not embraced in our usual catalogue, as also articles, which are marked *cash*, will be filled at manufacturers' prices for cash only, payable on receipt of invoice.

In conclusion, we beg to say we have been as definite as possible in describing the varieties of particular articles, as also the forms in which the same are usually sold, to prevent misunderstanding in regard to quality or prices; and we shall be happy to furnish goods (of strictly reliable character, put up with promptness in the best style of execution), *in any quantities desired*, on such terms as will merit a continued patronage.

CORRESPONDENTS MAY RELY UPON THE PROMPT EXECUTION OF THEIR ORDERS FOR GOODS IN QUANTITY, AS WELL AS RARE ARTICLES, PERTAINING TO EVERY BRANCH OF THE BUSINESS, AS IT IS WELL KNOWN THAT WE CARRY IN STOCK THE LARGEST AND MOST COMPLETE ASSORTMENT IN THE TRADE. BY OUR PRESENT ARRANGEMENTS, WE ARE ENABLED TO SHIP AND INVOICE ON THE DAY OF RECEIPT ALL ORDERS THAT REACH US BY THE MORNING MAILS.

We solicit your orders or lists for quotations for specified quantities, which will receive careful and prompt attention, with all the advantages which the quantity ordered and the market will permit.

Very respectfully yours,

McKESSON & ROBBINS.

IN PRESENTING OUR ANNUAL PRICES CURRENT,
WE DESIRE TO EXPRESS OUR SINCERE THANKS TO
OUR PATRONS FOR THE CONTINUED GENEROUS REC-
OGNITION OF OUR EFFORTS.

THE DEPENDENCE OF THE PHYSICIAN AND HIS
PATIENTS UPON THE PHARMACIST, AND THE CON-
FIDENCE WHICH SHOULD MUTUALLY EXIST, IMPOSE
UPON THE WHOLESALE DEALER AND THE MANU-
FACTURER OBLIGATIONS, THE INVIOABILITY OF
WHICH WE FULLY APPRECIATE. IN EXTENDING
THE SPHERE OF OUR LABORS, AND ENDEAVORING TO
KEEP PACE WITH THE PROGRESS OF THERAPEUTIC
SCIENCE, NO EFFORTS WILL BE SPAKED TO PROP-
ERLY DISCHARGE THESE OBLIGATIONS.

ORDERS ARE SOLICITED FOR GOODS IN ANY WAY
RELATED TO THE DRUG TRADE; AND BY ACCURACY,
NEATNESS AND PROMPTNESS IN EXECUTION, WE
HOPE TO MERIT YOUR CONTINUED FAVORS

VERY RESPECTFULLY,

McKESSON & ROBBINS.

MEDICINAL AND TECHNICAL DRUGS, CHEMICAL AND PHARMACEUTICAL PREPARATIONS.

This book, being intended for a commercial list of prices of goods, in regular and occasional demand, is compiled and arranged with this view. It is not deemed advisable to encumber it with articles seldom inquired for, but we will always be happy to furnish any crude obtainable, or manufacture any pharmaceutical or chemical preparation, which cannot be supplied from our stock or in our market.

We give special attention to supplying new stocks. Our large and complete assortment enables us to fill such orders entire, and give satisfaction in price and quality.

EXTRACTS, FLUID, MCKESSON & ROBBINS', see P. 71

These Extracts are prepared by cold re-percolation, thereby avoiding the effect of heat and exposure to the air, which impair those active principles in which the virtues of all vegetable remedies consist. The experience of the greatest and most successful practitioners of the present age, in the treatment of the most violent diseases, has proved that the menstrua in the exhaustion of the virtues of different drugs, and, in some, glycerin being a valuable adjunct to the alcohol—in others, objectionable. Each drug is carefully studied by itself, and great care is taken that each lot of the same extract shall be uniform with the preceding, and that the process of manufacture shall be used by a tested hand. The process which we employ has been endorsed by the leading Pharmaceutical journals and by our best chemists, and every thinking Pharmacist will readily acknowledge the danger of applying heat to medicinal drugs. Formulas for many of our Symples, Tinctures, &c., from our Fluid Extracts, are printed on the labels.

Gutta Percha, Crude, chips	lb.	1 25	1 40

* This Asafetida should be used by druggists instead of the powdered, as the BEST QUALITY of the Gum cannot be powdered so that it will not run through, and it is also injured by heat in drying. It is much superior to the Gum, as it is pure, freed from dross.

These Drinks are pronounced superior to anything of the kind ever offered in market, retaining the flavor of the fruit, and free from any danger of fermentation; they are manufactured in our laboratory, and we can guarantee that no Ethers, nor any injurious substances whatever, enter into their composition. The operation of preparing the Syrup for Soda Water consists merely in the admixture of one part of the Juice to seven parts of Simple Syrup, no addition of Citric Acid nor coloring matter being necessary.

By a method of our own, we obtain this salt absolutely pure, free from the red iodide or metallic mercury; and in PERFECTLY IMPALPABLE POWDER. The advantage of this must be apparent to every physician and pharmacist. We have received abundant testimony as to the great superiority of this preparation. The irritation of the stomach so frequently caused by the ordinary salt is no doubt due to impurity, such as red iodide, and is not observed in the use of our proto-iodide. We will furnish samples of the granules or of the salt on application. See page 81. Caution! Specify “McK. & R.”

OILS, ESSENTIAL, NOTE:—We would call special attention to our essential oils, which are selected and tested with the greatest care, the finest qualities of both medicinal and technical oils being offered in the following list. Our extended connections, both in home and foreign markets, give us unusual facilities in selection of qualities and in prices, the advantages of which we can offer to our customers. Whether Castor, Cod Liver, or Croton Oils are required for Medicine; Lemon, Peppermint, or Wintergreen, for Flavoring Extracts; Bergamot, Neroli, or Rose for Perfumery, it should be regarded as an axiom—"the best is always the cheapest."

McKESSON & ROBBINS,

Manufacturing Chemists,  *Manufacturing Pharmacists.*

LABORATORY DEPARTMENT.

We were awarded the highest medals, both at the Vienna and our Centennial Expositions, for excellence of our Preparations, including Gelatine-Coated Pills, Fluid Extracts, Elixirs, Syrups, &c., and we take pride in calling attention to the unqualified favor with which they have been received by the medical and pharmaceutical professions. We ask the continued patronage of those, who, by experience, can attest their superiority, while we request trial orders from all with whom quality is the main desideratum. We received a medal at Paris, in 1878, for crude indigenous drugs and essential oils, which comprised our whole exhibit. We were, also, awarded the first medal at Sidney, Australia, for fine Chemicals, which embraced our Quinine, Cinchonidine, &c. We were awarded a silver medal for our Capsuled Pills, at the Calcutta Exhibition of 1883-4.

We desire to call attention to the purity, whiteness and lightness of crystallization of McK. & R. Quinine, Morphine and Cinchonidine.

Regarding the cause of dissatisfaction with many of the Fluid Extracts and Pills offered in the market, to be due to careless selection of the crude drug, careless manipulation in manufacture, the want of practical knowledge of Pharmacy, and a strong desire to realize excessive profits on sales, we give this department our personal attention, and carefully superintend every detail.

ABSTRACTS—U. S. P., 1880.

Each grain of the powder represents two grains of the crude drug. Keep in well corked bottles in a cool place.

EXTRACTS, FLUID, McKESSON & ROBBINS'.

(DISCOUNT, LIBERAL.)

These Extracts are prepared by cold re-percolation, thereby avoiding the effect of heat and exposure to the air, which impair those active principles in which the virtues of all vegetable remedies consist. By experience we have determined the greater efficacy of different menstrua in the exhaustion of the virtues of different drugs; in some, glycerin being a valuable adjunct to the alcohol, in others, objectionable. Each drug is carefully studied by itself, and great care is taken that each lot of the same extract should be uniform with the preceding, the specific gravity, where the same menstruum is used, being a test. The process that we employ has been endorsed by the leading Pharmaceutical journals, and by our best chemists, and every thinking Pharmacist will readily acknowledge the danger of applying heat to medicinal drugs. Formulas for making Syrups, Tinctures, &c., from our Fluid Extracts, are printed on the labels.

Each pint of our Extracts represents one pound of the raw material, and the dose can be regulated accordingly. The only exceptions are Fluid Extract of Opium, one pint of which is equivalent to ten per cent. Gum Opium; Fluid Extract of Vanilla and Fluid Extract of Rhubarb Aromatic, which are twenty-five per cent., and Fluid Extract of Tolu and Fluid Extract of Benzoin, which are half strength, on account of density. Put up in 5 pt., 1 pt., $\frac{1}{2}$ pt. and 4 oz. bottles.

We desire to call special attention to our Fluid Extracts of Ipecac, Squill, Squill Comp., Sarsaparilla Comp., &c., for Syrups, which make clear Syrups by simple admixture, no filtration being necessary.

Special net prices furnished for bulk lots in specified quantities.

Our Extracts are sent in 1 pint bottles, unless specially ordered otherwise.

PILLS, GELATINE-COATED, McKESSON & ROBBINS'.

VOID IN SHAPE.

CONTINUOUS COATING.

(PROCESS AND MACHINERY PATENTED.)

It will be readily conceded that the preference of the medical and pharmaceutical professions for GELATINE-COATED PILLS, which is now so general, has been established by the merits of our manufacture. The reputation which the McK. & R. Pills have gained has induced as is usually the case many imitations, in most of which, unfortunately, the price has been more of an object than the quality. We respectfully urge upon all who would protect themselves against these, the necessity of mentioning our name or initials in ordering pills from other wholesalers. Nearly all the prominent jobbing houses in the United States, Canada, Great Britain, and the Colonies carry the complete line; and they may be procured from them by specifying "McK. & R.'s" when ordering. By observing this precaution, the pharmacist will avoid inconvenience to himself and disappointment in results to his physician and patrons.

We ask attention to the following features of the McK. & R. Pills:

1st. They are reliable, being made strictly in accordance with the formulas given, and of the best materials only.

2d. They are soluble: the gelatine, being speedily converted into jelly, the contents of the Pill are left free to act. To TEST THE SOLUBILITY OF THE COATING, PLACE A PILL IN THE MOUTH AND NOTE THE RAPID DISSOLUTION OF THE GELATINE. A SINGLE TRIAL OF A DOSE OF COMPOUND CATHARTIC PILLS WILL ATTEST THEIR SOLUBILITY AND EFFICACY.

3d. They are very easy to take: patients, who have found it almost impossible to swallow a plain or sugar-coated pill, are surprised at the readiness with which the McK. & R. Capsuled Pill "goes down," on account of the ovoid shape and the nature of the coating.

4th. Our Pills are ovoid and, unlike others, necessarily soft, when coated. Our process is the only one in which the mass can be coated when soft; in fact, the pills must be soft in order to be coated by our machinery, and the COATING COMPLETELY COVERS THE PILL WITH GELATINE.

ACID, ARSENIOUS.....See Arsenious Acid.
ACID, SALICYLIC See Salicylic.

ACONITINE (Merck's Amorph.) 1-100, 1-60 gr. 60 2 80
Narcotic. Dose, 1-100 to 1-60 grain, given cautiously.

ACONITINE (Duquesnel's Crystals), 1-500, 1-200 gr. 60 2 80

Dr. E. C. Seguin ("Archives Medicine, June, 1882,") says: Aconitine has been used by many physicians in numerous cases of trigeminal neuralgia, with some favorable results. A large proportion of cases have been cured, and some very ancient cases (8 to 12 years) greatly relieved by the medicine. It is well to give debilitated, susceptible, and female patients 1-250 or 1-200 grain to begin with.

Dr. A. Dumas speaks highly of the use of this drug in neuralgia, in very small doses. He says it is a very precise remedy and must be given with great regularity. He lays particular stress on the necessity of perfect purity and accurate dosing, and cautions the careless supply of the drug, especially in cases of poisoning. Physicians generally advise McK. & R. granules of 1-500 gr.

Ah in is the active principle of Aloes and was presented to the profession, in pill form, by us several years ago. Its mild aperient action and freedom from the griping tendency present in aloes, has made it a great favorite with many physicians. We commend the various combinations given below.

ALOIN COMPOUND -----	60	2 80
{ Aloin, 1-8 gr. } { Res. Podophylli, 1-8 gr. } { Ext. Belladonnae, 1-4 gr. }		

ALOIN, HYOSCY., NUX VOMICA & IPECAC ("Pil. Salutus," Dr. T. G. Thomas) -----	80	3 80
{ Aloin, 1-2 gr. } { Ext. Hyoscy., 1-2 gr. } { Ext. Nucis V., 1-4 gr. } { Ipecac. pulv., 1-6 gr. }		

ALOIN & STRYCHNINE -----	60	2 80
{ Aloin, 1-5 gr. } { Strychnina, 1-80 gr. }		
A tonic laxative granule prescribed for chronic constipation where a painless peristaltic action is required. Dose, 1 or 2 three times a day.		

ALOIN, STRYCHNINE & BELLAD., No. 1 -----	60	2 80
{ Aloin, 1-5 gr. } { Strychnina, 1-80 gr. } { Ext. Belladonnae, 1-4 gr. }		
Same formula as the preceding, with the addition of 1-3 grain Ext. Belladonna to each granule, and by many preferred to the above.		

ALOIN, STRYCHNINE & BELLAD., No. 2 -----	60	2 80
{ Aloin, 1-10 gr. } { Strychnina, 1-50 gr. } { Ext. Belladonnae, 1-6 gr. }

ALTERNATIVE -----	60	2 80
{ Opil pulv., 1-8 gr. } { Ipecac. pulv., 1-32 gr. } { Massa Hydrarg., 1 gr. }		
Similar in effect to Blue Mass Comp. When a mercurial alternative, with a decided tendency to the liver is desired, without action on the bowels, this pill will be found one of the best.		
Dose, 1 to 3, or more.		

AMMONIUM. MURIATE, COMPOUND -----	1 20	5 80
--	------	------

Each pill represents about one teaspoonful of the "Brown Mixture" of the U. S. F., with the addition of 1 gr. Muriate of Ammonium, and is recommended "in the advanced stages of catarrhal affections, after expectoration has become established." It may also be advantageously prescribed in throat and lung difficulties generally.

AMMONIUM, VALERIANATE -----	1 gr.	80 3 80
M. Declat speaks of the efficacy of this salt in neuralgia in the highest terms, and it is doubtless valuable in all diseases of the nervous system; such as hysteria, chorea, epilepsy, &c. The salt is perfectly preserved in these pills, as can easily be tested. Dose 1 to 3.		

NOTE.—We call attention to our pill of the Valerianates of Quinine, Iron and Strychnine, which will be found a valuable agent in nervous diseases.

BLUE MASS, U. S...... 5 grs. 45 2 05

This mass is prepared by succussion in strict accordance with the U. S. P. The oxidation of the mercury is very slight, and the mass retains its softness for a long time. As an alternative, from 1-2 to 1 gr. may be given every 24 hours. As a cathartic, from 5 to 15 grs.; in cases requiring a peculiar impression upon the liver, it is well to follow with a more certain cathartic.

Dr. David J. Blackburne and H. H. Henshaw speak highly of this salt in certain cardiac affections. In some forms of heart disease, the administration of caffeine will frequently relieve the symptoms where Digitalis fails. Recent researches show caffeine to have a directly stimulating action on the kidneys. Its diuretic effect is very marked.

This salt is mentioned by Dr. Ringer in the *Lancet* for Feb., 1874. We added the pills to our list about ten years ago, at the request of a prominent physician who used them with great success in scrofula, glandular enlargements, &c. Our sales have been very large indeed, and this valuable remedy is now much used by the Profession. Dose, in certain cases 1-10 grain

may be given every hour, or 1-4 to 1 grain twice a day. Dr. Simson Snell, in the "Practitioner" for January, 1882, gives a record of several cases of strabismus ophthalmia treated with Sulphide Calcium, which recovered very rapidly under its use. He gives 1-16 to 1-8 grain three times a day. These cases are given in N. Y. MEDICAL ABSTRACT, p. 74, 1882.

The usefulness of this preparation has been greatly limited by the varying character of the extracts found in the market. Dr. E. C. Spitzka speaks very highly of the quality of our extract. It is made in porcelain vessels, from the best selected flowering tops, and each lot is tested therapeutically before it is sent out, so that the Profession can depend upon its action with almost as great certainty as they can on that of Morphine. "In morbid states of the system, it (Ext. Cannab. Indic.) has been found to cause sleep, to allay spasms, to compose nervous inquietude and to relieve pain. It has been specially recommended in neuralgia, gout, rheumatism, tetanus, convulsions, hysteria, mental depression, and delirium tremens." Dose 1-8 to 1-2 gr., repeated in three or four hours and increased if necessary.

The extract of colocynth, from pulp, and extract jalap are made in our own laboratory. One of these pills will be generally found to act as a laxative, and two of them with certainty as a cathartic. May be employed in most instances where a brisk cathartic is required; but is particularly applicable to the early stages of bilious fevers, to hepatitis, jaundice and all those derangements of the alimentary canal, or of the general health, which depend on congestion of the portal circle.

These pills are prepared from our own solid extract, each lot of which is assayed. A pound of our solid extract contains about 120 grains of the alkaloid, cocaine, and our fluid extract about one-fourth as much, or about 30 grains. The pills have a tonic effect and may be used successfully to overcome the opium habit. Dr. C. E. Shelly ("Practitioner") has found coca to have an astringent action, and he has used it successfully in a case of recurrent hemorrhage from the rectum. For notes regarding cocaine (the active principle of coca) see below.

In angina pectoris, Prof. V. G. Lashkevitch has obtained good results from the use of cocaine internally. It does not cut short the paroxysms, but after two or three days' use the attacks gradually decrease in strength and duration, and then disappear altogether. As to general effects, the alkaloid retards the pulse and increases its volume, as well as the quantity of urine. Drs. DaCosta and Penrose found cocaine to have marked diuretic effects, and they suggest its value in cases of weak heart with dropsy, and in uræmia with scanty secretion of urine. Notes on the recent uses of cocaine sent free to any physician. A prominent physician considers cocaine a means of curing the opium habit if properly used. He has never seen a "habit" formed by its use, and classes the drug rather with tea and coffee than with opium in this respect.

DIPSOMANIA 50 2 30

Strychnine Nitras, 1-60 gr.

Much has been written by the French and Italian writers on the value of strychnine in dipsomania; lately, papers on the subject have appeared in the "Vratch," a Russian journal, by Drs. Popoff and Tolvinski, in which mention is made of strychnine in several cases. In the case of a man of 34, who had been a hard drinker for years, and had been treated with chloral, opium, bromide, etc., without results, one-sixtieth of a grain of nitrate or strychnine, three times a day, was ordered; spirits not being prohibited. The patient improved, and soon lost all inclination for drink, which has continued until the present time, four months. After the first day, the dose was given twice a day, the treatment continuing for six weeks.

Ergot, and each 3 gr. pill being equal to half a teaspoonful of official fluid extract. The value of Ergotin, in the place of the crude drug and the Fluid Preparations, is conceded; and it is being largely administered both in this country and in Europe. It has taken a prominent place in the treatment of Neurotic diseases. Many of our most reliable practitioners, and particularly those of extended experience in gynecology, assert that they have never found a preparation of Ergot, in which, by experience, they felt as much confidence as in McKesson & Robbins' Ergotin Pills. The advantages of prescribing it in this form are obvious. (Dose, 2 to 10 grs.)

WE OFFER OUR ERGOTIN, PREPARED SPECIALLY FOR HYPODERMIC USE, IN ONE OUNCE BOTTLES, SPECIFY M.K. & R.'S FOR HYPODERMIC USE, AS WE ALSO MANUFACTURE AN ERGOTIN AFTER BONJEAN'S FORMULA.

The Solid Extract is of our manufacture and ten times the strength of the Herb; it can be used much more readily and with better effect than any of the liquid preparations. The use of this remedy in Hay Fever, and all Asthmatic difficulties, has increased largely in the Eastern States and Europe. Dose, 1 to 3.

GUARANA EXTRACT (Paulinia)	3 grs.	1 60	7 80
---	--------	------	------

This Solid Extract is manufactured in our laboratory, and is eight times the average strength of the drug. We offer these Gelatine-Coated Pills with confidence in their being the only accurate mode of preparing this widely used and much appreciated remedy, as the drug varies so much in strength; some preparations in the market have been found to consist largely of impurities. We carefully test each shipment we receive, and our Solid Extract is of superior and uniform quality. The value of Guarana, in many phases of sick, nervous and sun Headache, as well as in Neuralgia, and in irritations of the mucous membrane, has become well known to practitioners, and its happy effects in Diarrhoea, Dysentery and kindred diseases, have been attested in numerous cases. Dose, 2 to 3.

IRON BY HYDROGEN (Quevenne's)	1 gr.	40	1 80

IRON BY HYDROGEN (Quevenne's)	2, 4 grs.	60	2 80
--	-----------	----	------

The black, reduced iron generally found in market is not fully deoxidized; its properties appear to be those of an astringent rather than tonic, and it does not take the place of Quevenne's Iron or the true Ferrugin reduction of the U. S. Pharm., which is of an iron gray color. (See U. S. Disp., 1877, pp. 416 & 1296.) We import Raudenbush's iron, which is used in these pills; the color may be seen upon cutting one of them open. Tonic, and peculiarly well-fitted to improve the quality of the blood when impoverished from any cause. Useful in diseases characterized by debility. Usually employed in chronic granular chlorosis, hysteria, senility, passive hemorrhages, neuralgia, and dyspepsia when dependent on deficient energy of the digestive function. Contra-indicated in all inflammatory diseases. Dose, 2 to 6 grains three or four times a day, best administered just before or after eating.

Pernanganate of potassium has been used as an emmenagogue for some time, but its liability to decomposition and its irritating qualities have made it unsuitable in many cases. Drs. Ringer and Merrell have pointed out that the peculiar action of the drug depended upon the manganese, and hence binoxide of manganese, while free from the objections of the permanganate of potass., would effect the same object. Dr. T. Gaillard Thomas regards manganese as a "regulator of menstruation." In the absence of the menses, irregularity of their recurrence, and in excess of flow, he says: "I now employ McKesson & Robbins' pills of the binoxide of manganese. Of this preparation I give two grains three times a day throughout the month and during the period. I also employ manganese in chlorosis and anemias, and I think that I obtain better results than I have heretofore done by iron."

and our vastly increased sales are additional proof. The irritation of the stomach so frequently caused by the ordinary salt is no doubt due to impurity, such as red iodide, and is not observed in the use of our proto-iodide. We will furnish samples of the granules or of the salt on application. Useful in acrofula and scrofulous syphilis. Should never be given at the same time with Iodide of Potassium, which converts it into Bin-Iodide. Dose, 1-20 to 1-2 gr. Caution! Specify McK. & R.

Dr. McCall Anderson, mentioning the exhibition of this drug in angina pectoris, says:

"My experience of the comparative merits of nitric amyl and nitro-glycerin is, that while the latter acts more slowly, it seems to be more permanently beneficial." Dr. W. E. Greene says, after giving several cases of heart disease: "In this new agent we have a very powerful measure in diseases of the heart. Not only palliative, but in many cases actually curative." Dr. Wm. A. Hammond gives this drug in migraine and epilepsy with good results. The dose is one drop of a one per cent. solution, equal to one of the 1-100 gr. pills. It should be very cautiously increased. The above facts are taken from the "New York Medical Abstract," pp. 271 and 279, 1881, and p. 104, 1882.

PHOSPHORUS.	50	2 30
1-200, 1-100, 1-60, 1-50, 1-30, 1-20, 1-12 gr.		
The Phosphorus in our pills is always presented in the free state, and perfectly sub-divided, thus insuring safety and absence of any cause of irritation to the stomach.		
Dose, from 1-100 to 1-30 gr. twice or three times a day. Many of the Phosphorus combinations given here are formulas used by Dr. Kirby, of the Royal College of Surgeons, England, and many of the notes are taken from his work.		
NOTE.—In most cases phosphorus and its compounds should be administered with food.		
PHOSPHORUS & DIGITALIS COMPOUND.	70	3 30
{ Phosphorus, 1-50 gr. }		
{ Ipecac. pulv., 1-4 gr. }		
{ Opil pulv., 1-4 gr. }		
{ Digitalis pulv., 1-2 gr. }		
PHOSPHORUS & EXTRACT ACONITE.	60	2 80
{ Phosphorus, 1-50 gr. }		
{ Ext. Aconiti Alc., 1-16 gr. }		
Dose, one pill every four hours.		
PHOSPHORUS & EXT. CANNABIS INDICA.	70	3 30
{ Phosphorus, 1-50 gr. }		
{ Ext. Cannab. Ind., 1-4 gr. }		
A good narcotic, in cases where Morphine should not be administered; and recommended as an aphrodisiac in the place of Nux Vomica.		
PHOSPHORUS & IRON.	70	3 30
{ Phosphorus, 1-50 gr. }		
{ Ferrum Reduct., 2 grs. }		
PHOSPHORUS & NUX VOMICA. Phos. Co.

PHOSPHORUS COMPOUND, No. 3.	60	2 80
{ Phosphorus, 1-50 gr. }		
{ Ext. Nucis Vomice, 1-8 gr. }		
These three compounds of Phosphorus may be given in doses of 1 or 2 pills, three times a day, after meals. A nutritive tonic and stimulant to the nervous system, especially adapted to the treatment of nervous disorders dependent on defective nutrition.		
PHOSPHORUS COMPOUND & IRON.	70	3 30
{ Phosphorus, 1-100 gr. }		
{ Ferri Phosphas, 1-2 gr. }		
{ Ext. Nucis Vomice, 1-8 gr. }		
PHOSPHORUS, DIGITALIS & EXT. HYOS.	70	3 30
{ Phosphorus, 1-50 gr. }		
{ Digitalis pulv., 1 gr. }		
{ Ext. Hyoscyami, 1 gr. }		
Pronounced a valuable medicine as a heart tonic. The tonic effect of Digitalis on the voluntary muscular fibre is claimed to be analogous to that of Strychnine on the involuntary muscular system. Dose, 1 pill two or three times a day, at equal intervals, which should be omitted when effect is produced upon the head, stomach, pulse, or kidneys. Caution should be used in administering these pills, and they should only be taken when and as prescribed by a physician.		
PHOS., EXT. NUX VOM. & CARB. IRON.	70	3 30
{ Phosphorus, 1-50 gr. }		
{ Ext. Nucis Vomice, 1-4 gr. }		
{ Ferri Carb., 1 gr. }		
Dose, one or two pills at each meal, with food.		
PHOS., EXT. N. VOM. &c. Phos. Co. & Iron.		
PHOS., EXT. NUX VOMICA & EXT. ALOES.	70	3 30
{ Phosphorus, 1-50 gr. }		
{ Ext. Nucis Vomice, 1-4 gr. }		
{ Ext. Aloes Soc., 1-2 gr. }		
A good dinner pill, useful in atonic dyspepsia, hypochondria and other nervous affections accompanied by habitual constipation. When, in administering, for some time, Phosphorus and Iron or Phosphorus and Quinine, constipation is induced, this pill may be substituted with advantage once a day between doses. Dose, one immediately after dinner.

------------------	-----------	---------

A prominent physician, in referring to this remedy, says that his success with Picrotoxin in the treatment of night-sweating in Phthisis has been decidedly superior to any attained by the use of the mineral acids, belladonna and ergot, singly or combined. He writes: "I have not employed this drug in the night-sweats of phthisis solely. I recall a case of chronic pleurisy in which the effusion having been absorbed, convalescence was unaccountably retarded and prostration was so extreme that a latent, incipient phthisis was suspected. The skin was bathed in perspiration during the greater portion of the twenty-four hours, and this being the only discoverable morbid condition, I resolved to treat it with picrotoxin. It was promptly checked, and convalescence set in immediately. I have employed the drug in nearly one hundred cases. My custom has been to give a pill containing gr. 1-80 at bedtime, which dose may be repeated once or twice during the day in obstinate cases; and, at my suggestion, the firm of McKesson & Robbins have added such a pill to their list."

BI-SULPHATE OF QUININE IS MUCH MORE SOLUBLE THAN THE SULPHATE, THE LATTER REQUIRING SEVEN HUNDRED PARTS OF WATER TO DISSOLVE IT, WHILE THE BI-SULPHATE DISSOLVES IN TEN PARTS. IN ORDERING, WE WOULD ADVISE PHYSICIANS TO SPECIFY BI-SULPHATE. McK. & R.'s BI-SULPHATE OF QUININE PILLS ARE MORE SOLUBLE AND MORE ASSIMILABLE THAN SULPHATE OF QUININE TAKEN IN POWDER.

The demand has largely increased, and experience has justified our further claim that on account of PROMPT ACTION and PERFECT SOLUBILITY, Bi-Sulphate of Quinine, although containing less of the Quinine Alkaloid, is MORE EFFICACIOUS, dose for dose, than Sulphate of Quinine. To be sure of the best results we must advise the profession in this, as in all other cases, to specify McK. & R. on their prescriptions.

A prominent physician writes us: "I find that combination (pil. quinia et chlor. gold comp.) a most useful tonic in all forms of mental depression * * hypochondriasis, melancholia, hysteria, and allied affections. Especially so in that mental condition when dependent on the presence of the syphilitic poison in the system. * * It not only relieves the mental symptoms, but proves an efficient aid in elimination of the poison. In treatment of the opium habit, after a number of year's use of this compound, I am thoroughly convinced of its value." Dose, 1 pill three times a day after meals.

SALICIN	1 gr.	60	2 80
SALICIN	2-12 grs.	1 00	4 80
SALICIN	5 grs.	1 60	7 80

Valuable in Rheumatic affections, also as a Tonic, Astringent, and Anti-Periodic, and is best exhibited in our Gelatine Coated Pills. Salicin has been found very efficacious, and according to "The Lancet," not less certain in acute Rheumatism than Quinine is for Ague. In large doses, it has been claimed to be an absolute specific in Gonorrhea (suppurative).

SALICYLIC ACID	1 gr.	45	2 05
SALICYLIC ACID	2-12 grs.	60	2 80
SALICYLIC ACID	5 grs.	1 00	4 80

Our pills present the best form for administering this now very important remedy, which has proved so efficacious in Rheumatism, and which is used extensively used as an Antiseptic and Febrifuge. It is claimed that the solutions, formed by the use of Sodium, Ammonium and other salts, produce combinations which do not represent the full value of the free Acid.

Tonic, anti-spasmodic and astringent. Has been given in chorea, epilepsy, whooping-cough, spasm of the stomach dependent on dyspepsia, etc., and in the diarrhoea of infants.

ZINC. PHOSPHIDE	1-6, 1-4 gr.	60	2 80
ZINC. PHOSPHIDE	1-2 gr.	80	3 80

Has been very successfully used by prominent authorities or treatment of brain diseases, also with remarkable results in severe cases of Neuralgia. See paper by Dr. Adolphus, which states that Phosphide of Zinc is more prompt and reliable in its action than free Phosphorus.

ZINC. PHOSPHIDE, & EXT. NUX VOMICA ..	80	3 80
{ Zinci Phosphidum, ..	1-10 gr. }	
{ Ext. Nucis Vomica, ..	1-4 gr. }

ZINC. VALERIANATE	1 gr.	75	3 55
ZINC. VALERIANATE	2 grs.	1 00	4 80

Anti-spasmodic. Considered a remedy in neuralgic affections. Has been used with success in nervous diseases attended with palpitation of the heart, constriction of the throat and pain in the head. Useful in epilepsy, and in the nervous affections which accompany chlorosis. Dose, 1 to 3 grains, several times a day.

PILLS AND GRANULES, GELATINE-COATED, Of Rare and Expensive Alkaloids.

For the convenience of the Medical Profession, these Granules are put in bottles of 25 each.
For other formulas, in bottles of 100 each, see foregoing pages.

CANNABIN, Tannate, bottles 25 pills.....1 gr. 5 00
(Glucoside, from Cannabis Sativa).

Recommended by Drs. Frommüller (Memorabilien von Betz) and Hiller (Charité, Berlin) as a mild and agreeable hypnotic, especially in cases of nervous sleeplessness, where morphine, etc., could not be administered. It is considered by these authorities superior to any preparation of opium, as it does not interfere with the digestive organs, or in any degree retard the motion of the bowels. Is particularly recommended to the notice of physicians in charge of hospitals for the insane. Dose, 1 to 8 pills.

CHELIDONINE, Muriate, bottles 25 pills.....1 gr. 15 00
(From Chelidonium Majus).

A laxative, slightly diuretic. Unlike Chelerythrine, (from the same plant,) it is not poisonous. Dose, 1 to 4 pills.

COCAINE, Muriate, bottles, 25 granules, 1-10 gr. 2 00

COCAINE, Muriate, bottles, 25 granules, 1-20 gr. 1 50
Recommended in sleeplessness, vomiting of pregnancy, and for the cure of the "opium and chloral habits."

COLCHICINE, bottles 25 granules.....1-60 gr. 80
(Alkaloid from Colchicum autumnale).

Drastic, diuretic. In gout and rheumatism. Dose, 1 to 3 granules.

COLOCYNTHIN, bottles 25 granules.....1-8 gr. 1 60
(Glucoside, from Citrullus Colocynthis).

A very effective and painless purgative in large doses. As a laxative it may be given in doses of 1 to 6 granules.

CONVALLAMARIN, bottles 25 granules, 1-100 gr. 1 60
(Glucoside of Convallaria majalis: Lily of the Valley).

Powerful cardiac stimulant. Dose, 1 granule, very cautiously increased. Must not be confounded with Convallarin, which is a purgative.

DATURINE, Sulph., bottles 25 granules, 1-100 gr. 1 00
(From Datura Stramonium).

Dose and effect similar to that of Atropine, Duboisine and Hyoscyamine. The slight differences in effect noticed between these four alkaloids is probably due to traces of other principles not yet studied.

COCAINE, CITRATE, 1-10 gr. uncoated pellets for dentists' use, per doz. bottles of 10 pellets, 1-10 net.

We are constantly prepared to furnish Syrups, Tinctures, Wines and all other Pharmaceutical Preparations, at short notice. Special quotations given by the gallon or larger quantity.

McK. & R. POWDERED DRUGS.

It seems highly proper to classify powdered drugs among pharmaceutical preparations, because the selection and gabbling of the crude drug and its reduction to a powdered form make a preparation of the powder, and as such it should carry the label of the producer as a guarantee of its purity, the same as a bottle of Quinine or Fluid Extract. We have recently adopted 1 lb. square tins as containers, and prices quoted below, which will be subject to market changes, include the cans, the increased cost for which is trifling. These cans are very slightly and make neat and attractive shelf packages.

Powdered Cinchona Barks and Powdered Opium will be labeled with their respective assays, and upon the labels of Powdered Ergot and Powdered Narcotic Leaves will be stated the year that the crudes were gathered.

Other powders than those here quoted will be furnished, of guaranteed purity, upon application. Our desire is to have the trade order the following powders in 1 lb. cans only, and on that account we have merely added the increased cost, figured down to the lowest basis.

All powders sent out by us, in cans bearing our label, are guaranteed by us.

McK. & R. Muriate of Cocaine,

ANHYDROUS CRYSTALS.

1 oz. vials.....\$7 50 per oz.

The following abstract from an editorial in the June number of the *American Druggist* will be found interesting :

* * * * *

"While the permanganate test, therefore, enables us to prove the freedom of a sample of cocaine from the amorphous bases, it does not follow, *eo ipso*, that the samples which did not stand the test were less effective, physiologically or therapeutically, than the crystalline. It will, however, be conceded that when we have the choice of two varieties of a substance—of about equal activity—and one of them can be obtained in a crystalline condition, while the other cannot, that it is the wiser plan to select the former as giving more guaranties for its purity.

The crystallized hydrochlorate of cocaine, $C_{17}H_{21}NO_4 \cdot HCl \cdot (H_2O)_2 = 375.4$ contains 9.59 per cent. of water of crystallization, when crystallized from an aqueous solution.* *It forms anhydrous crystals, as we learn from a recent European report, when crystallized from alcohol.* The new British Pharmacopœia gives the formula of the salt without the water of crystallization, and therefore conveyed the impression that it required the salt to be furnished in an anhydrous condition. In fact, Howard and others were in the habit of supplying it anhydrous, though they also made the crystals. Now, if a cocaine salt, which has crystallized with water, is dried and rendered anhydrous, it will be practically the same thing as the same salt crystallized anhydrous from alcohol (supposing this were possible in every case). Such a desiccated crystallized salt has been in considerable demand, because it has been regarded by many as a more definite and uniform starting-point for making solutions of a known strength, than a crystalline salt in which the water of crystallization might vary from various causes."

* McK. & R. brand of Muriate Cocaine is crystallized from an alcoholic solution, and is remarkable for the dryness, purity, and whiteness of the crystal. McKesson & Robbins manufacture only the anhydrous variety; and physicians can feel assured of receiving a uniform article by ordering "McK. & R.'s" in original vials. It is put up in 5, 10, 15 grain, $\frac{1}{2}$ and 1 oz. vials. The *British Med. Jour.*, (July 24, 1886), speaking of McKesson & Robbins' cocaine, says: "A nominally $\frac{1}{2}$ solution is notably stronger than a solution prepared with other crystals. As the price is the same, there is evident economy in employing the former." Both the *Lancet* and *Medical Press*, of London, speak in the highest terms of the McK. & R. preparations.

GOODS BY MAIL.

We have had much trouble on account of packages sent to us and ordered from us by mail, and would once more caution our customers that the laws are very strict.

All packages, containing POWDERS, or GLASS, except when enclosed in mailing-tins, PAY LETTER POSTAGE OF TWO CENTS AN OUNCE. All sealed packages must be prepaid, two cents an ounce. Packages which can be opened for examination, and which do NOT contain Powders, Glass, or Written Matter can be sent by mail at one cent an ounce.

NOTE.—If the article is not fully prepaid, DOUBLE the balance of postage is charged, when the package is received from the mails, which must in turn be charged to the sender.

ALWAYS HAVE PRINTED ADDRESS on every package sent us by mail or express.

GOODS ORDERED BY MAIL ARE SENT AT THE RISK OF CUSTOMERS.

CHOICE PHARMACEUTICALS.

Special attention is requested to our quotations of choice pharmaceutical preparations, pages 65 to 101. Besides a general line of Fluid and Solid Extracts, Cerates, Elixirs, Gelatine-Coated Pills, Plasters, Tinctures and Wines, we quote a list of *Select Powdered Drugs, Oils and Purified Salts*, the preparation of which we have made a special feature.

To those who have experienced difficulty in procuring these important classes of preparations of satisfactory quality, "McK. & R.'s" are recommended, with full confidence that they may always be dispensed without fear of disappointment to druggist or physician.

Trusting that your orders with us will be largely increased, we remain,

Very respectfully yours,

McKESSON & ROBBINS.

McKESSON & ROBBINS'

Fine Imported Insect Powder.

In Bottles, Doz., \$1.50; Gross, \$16 00.

BEST! LARGEST! CHEAPEST!

McKESSON & ROBBINS'

PURE

IMPORTED INSECT POWDER

Kills Cockroaches, Croton Bugs, Ants, Fleas, Lice, Bedbugs, Musquitoes, Moths and all other insects which infect houses, annoy animals and destroy plants and flowers. This Powder is imported by us direct, and our large facilities and extended correspondence enable us to procure the very best article fresh and pure.

Directions.—Three things are necessary to remember: 1st. Use it in the daytime, by dusting it into holes and crevices around the

sides of the room, as the insects are concealed during the day. 2d. The insects are destroyed by breathing the Powder, not by eating it, therefore distribute thoroughly. 3d. KEEP THE BOTTLE WELL CORKED and free from air to preserve its properties. Flannels and woolen goods of all kinds are protected from Moths by scattering this Powder upon them and wrapping in linen or paper.

It is not injurious to human nor animal life.

Sold by McKESSON & ROBBINS, 91 FULTON STREET, NEW YORK,

McK. & R. OLEATES.

We are prepared to furnish these useful substitutes for ointments in any desired quantity, and can guarantee exact strength and certainty of effect, as none but the purest medicinal agents are used in their preparation. In their effects they appear to be more prompt and certain than ointments. Our present list can be found on page 82, but any desired kind will be manufactured to order at short notice.

McK. & R. SCALE PREPARATIONS.

We now manufacture Citrate of Iron; Citrate of Iron and Quinine, U. S. P., (12% Quinine, reddish), and Soluble (10% Quinine, greenish); Pyrophosphate of Iron, etc., in large quantities, and, what is very important in the quinine preparations, we can guarantee both appearance and full percentage. Our extensive quinine manufacture gives us facilities in the production of these important preparations, and the ability of our analytical chemists in analysis insures the quality.

IF YOU ARE already a Subscriber, you will always recommend
THE DRUGGISTS CIRCULAR— BECAUSE

It is not an Experiment —

But is practically the Oldest, Largest, Best and Most Successful Journal of its Kind in the World. Nearly all Druggists have read and profited by it regularly since they were first connected with the business, and very often their fathers and predecessors before them.

It is not an Organ —

But it is the only Drug Journal of any value that is not run in the interest of parties who have something to sell the trade ; and that is entirely free and independent in every respect.

It does not Suppress —

But gives ALL THE NEWS and other FACTS of interest to Druggists in all parts of the country. Owing to its Great Popularity and Large Circulation it is strong enough to afford TO TELL THE WHOLE TRUTH ON ALL SUBJECTS.

THE DRUGGISTS CIRCULAR, after thirty years of unprecedented success, stands to-day far ahead of all the other Drug Journals of the World in CIRCULATION and ADVERTISING PATRONAGE. It alone can afford to have the best and most thorough organization, and employ the highest talent in every department. The best Pharmaceutical and Medical Journals of the World, in every language, are regularly examined by our large corps of Editors, and everything of value translated for our columns.

THE DRUGGISTS CIRCULAR is the only Journal of its kind that regularly pays cash for original contributions of all kinds. Short practical articles, either as editorials, or special contributions, are always welcome, and will be liberally paid for, if used.

THE DRUGGISTS CIRCULAR gives two to ten times as much reading matter as any other similar Journal, and the cash outlay each month is probably more than for all others combined. Write for circular with specimen Editorials, which show its THOROUGHLY INDEPENDENT POSITION, and what it ALONE is doing for the Instruction and Edification of American Druggists.

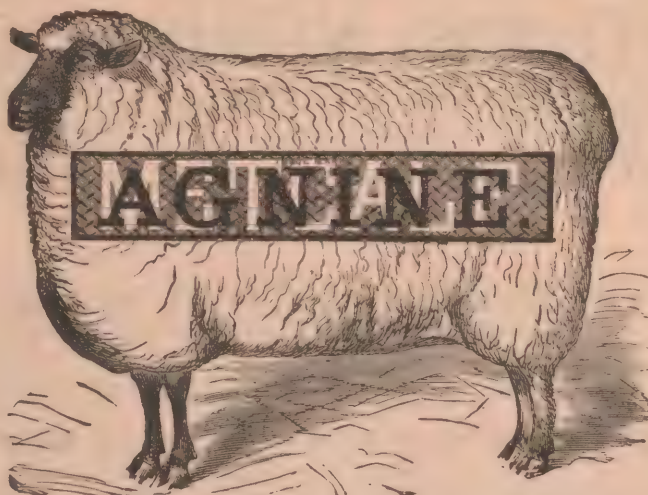

DRUGGISTS *who depend on the PRICE LISTS and PERIODICALS sent out by JOBBERS, MANUFACTURERS, ETC., or secretly published in their interest, will lose annually more than a hundred times the cost of THE DRUGGISTS CIRCULAR, as the ONLY WAY TO KEEP POSTED, and know ALL THAT IS GOING ON is to read it regularly.*

Estab. 30 Years. Enlarged and Improved. Only \$1.50 a year, if paid in advance.

THEODORE METCALF & CO., BOSTON, MASS.

TRADE SUPPLIED BY MCKESSON & ROBBINS.

THREE MORE MEDALS IN 1886.

The recent International Expositions at Edinburgh and Liverpool, and the American Institute, New York, have awarded us the Highest Silver Medal, which swells our list to about

Thirty-five Gold, Silver and Bronze Medals
FROM ALL PARTS OF THE WORLD.

THE REASON FOR IT IS PLAIN.

We make but one quality, and that THE BEST. WE SCRUPULOUSLY CONFORM TO THE PHARMACOPŒIA, or other recognized standards, in the incorporation of medicinal ingredients. We command perfect skill in manipulation, we use pure and superior fabrics, our packages are neat, elegant and convenient, and our prices are not only uniform, but the most reasonable that can be placed on honest goods of the first quality.

THE STATUS OF THE WHOLE PLASTER BUSINESS

is well shown by the analyses of Belladonna Plasters, the leading article on the list of spread goods, made in March, 1886, by Dr. Albert B. Prescott, Prof. of Chemistry at the University of Michigan, and President of the American Chemical Society, from goods purchased by him in open market. The analyses were made by the same process, in parallel operations, for the quantity of total Belladonna alkaloids, estimated as atropine, and show our Belladonna plaster to contain 0.543 of a grain of alkaloid, which represents the strength of a plaster made after the standard prescribed by the U. S. P. from the highest grade of belladonna root. The same analyses showed the next highest belladonna plaster to contain but 0.264 grains of alkaloid, or less than half U. S. P. strength; while the several other brands examined contained from 0.230 grains to 0.015 grains, proving the S. & J. plaster to contain more than twice as much belladonna as the one approaching nearest to it, the rest falling below the line of any valid comparison, a number having scarcely a trace of belladonna alkaloid.

IN FURTHER PROOF OF OUR DESIRE AND PURPOSE

to maintain, and, if possible, to enhance, the high standard and reputation of our goods, we cite the fact that we have recently erected one of the most complete and best equipped laboratories in the United States, and we shall hereafter manufacture every medicinal extract incorporated in our specialties, and can guarantee, through our own analyses, the strength and quality of all drugs we employ; thus, also, ensuring the perfect uniformity of all our products. For many years pharmacists have preferred our goods because they always found them therapeutically reliable, as others were not; and our new departure will set up a stronger safeguard than ever against cheap and worthless plasters and dressings.

WE HAVE ESTABLISHED THE STANDARD.

Failing to make goods equal to ours, and which would sell on their merits, our competitors have heretofore striven to introduce their goods to the notice of the trade and the medical profession by imitating our trade marks, packages, circulars, and price lists. Now certain plaster makers have evidently found it necessary to adopt more desperate tactics, since we learn from retailers in Pennsylvania and New Jersey that jobbing-house salesmen have solicited them to buy other goods when ours were indicated on their order. In one case the salesman said the house he represented no longer stocked our goods; in another, that we no longer made some of the articles desired. On inquiry, we learn that the representatives of these desperate plaster manufacturers offered these men a personal consideration to perform this dishonorable service. In one or two cases a direct money bribe was tendered and refused. The whole scheme shows to what straits our competitors are reduced, and indicates clearly the necessity for pharmacists specifying "S. & J." goods when ordering, if they would be able to guarantee the therapeutic results expected from medicinal plasters, or the strict reliability of goods for surgical use.

BELLCAPSIC PLASTERS.

Dr. GROSVENOR'S BELLCAPSIC PLASTER is, without exception, the most efficacious external remedy in the market, AND pays the retailer a larger profit than any other advertised Plaster. DRUGGISTS buying these Plasters will be furnished with circulars containing testimonials that will bear out the above statement.

AMERICAN SURGEONS' RUBBER ADHESIVE PLASTER,

A reliable non-irritating Adhesive Plaster that is not affected by age or climate. It will neither slide nor stretch, and is always ready for use, requiring neither heat nor moisture to cause it to adhere. It is put up in one yard and five yard rolls, and on one, two, and three inch spools, each spool containing ten yards. In quality it is the best, and in price the cheapest.

AMERICAN SURGEONS' ADHESIVE BANDAGE.

The best Bandage ever made for surgical use, will not adhere to anything but itself, will be found useful for so simple a thing as retaining dressings on wounded fingers, and from that up to capital operations: is waterproof and adheres on either side. Put up in 1, 2, and 3 inch widths, 10 yard rolls.

THE above are a few of the articles we manufacture, and customers can rely on getting the best quality for the least price. SEND FOR CATALOGUE FOR FULL LINE.

Patented Sept. 17, 1878, and March 4, 1879.

Trade Mark "HOUSEHOLD" Registered.

The celebrated "HOUSEHOLD" Syringe is manufactured of PURE RUBBER and JET. Unlike all other syringes it has no metal fittings to become corroded, nor any screw threads or washers, which are so liable to get out of order, thus making the Syringe useless.

The Injection Tubes being non-conductors of heat, are soothing and agreeable in use, and easily exchanged by inserting them into the socket. For efficiency, cleanliness and durability the "HOUSEHOLD" is the most perfect Syringe obtainable.

NATRONA BICARB. SODA.

“THE BEST IN THE WORLD.”

(ABSOLUTELY PURE.)

The nature of the raw material from which NATRONA BICARBONATE OF SODA is made—viz., Kryolith, a mineral containing *pure sodium*—ensures a purity and uniformity of product which cannot be obtained from any other known material. In making Bicarb. Soda from any other raw material, the use of sulphuric acid is a necessity, but none is used in any part of the process of making NATRONA BICARB.; hence its entire freedom from the slightest trace of arsenic, which is always present in ordinary soda. Its absolute purity and entire freedom from all traces of *sulphate of soda*, common salt, and other impurities, render NATRONA BICARB. NEARLY TASTELESS, and being bolted through the finest bolt-cloth ensures the finest state of division.

To these indisputable facts the attention of CONSUMERS of soda is especially called. They are IMPORTANT, and should influence both those who use and those who sell soda to buy and sell NONE BUT THE BEST.

The NATRONA Bicarb. Soda is kept in stock by almost every wholesale druggist and grocer throughout the United States, of whom it may be ordered.

NATRONA BICARB. SODA is unequalled by any other brand of ENGLISH or AMERICAN manufacture.

DR. D. JAYNE'S

FAMILY MEDICINES

Are prepared with great care, especially for family use, and are so admirably calculated to preserve health and remove disease, that no family should be without them. They consist of

JAYNE'S EXPECTORANT, for Colds, Coughs, Asthma, Consumption, and all Pulmonary and Bronchial affections. It promotes expectoration and allays inflammation.

JAYNE'S TONIC VERMIFUGE, for Worms, Dyspepsia, Piles, General Debility, &c. An excellent Tonic for Children, and a beneficial remedy in many of the ailments of the young.

JAYNE'S CARMINATIVE BALSAM, for Bowel and Summer Complaints, Colics, Cramp, Cholera, &c. A certain cure for Diarrhoea, Cholera Morbus, and Inflammation of the Bowels.

JAYNE'S ALTERATIVE, of established efficacy in Purifying the Blood, and for curing Scrofula, Goitre, Dropsy, Salt Rheum, Epilepsy, Cancers, and Diseases of the Skin and Bones.

JAYNE'S AGUE MIXTURE, for the cure of Fever and Ague, Intermittent and Remittent Fevers, &c. These distressing complaints are very generally eradicated by this remedy, when taken strictly as directed.

JAYNE'S LINIMENT OR COUNTER IRRITANT, for Sprains, Bruises, Soreness in the Bones or Muscles, Rheumatism, and useful in all cases where an external application is required.

JAYNE'S SANATIVE PILLS, a valuable Purgative and a certain cure for all Bilious Affections, Liver Complaints, Costiveness, Dyspepsia, and Sick Headache.

JAYNE'S HAIR TONIC, for the Preservation, Beauty, Growth and Restoration of the Hair. A pleasant dressing for the hair, and a useful toilet article.

JAYNE'S SPECIFIC FOR THE TAPE WORM, a certain, safe, and prompt remedy.

In settlements and localities where the attendance of a Physician cannot be readily obtained, Families will find these Remedies of great service. The Directions which accompany them are in plain, unprofessional language, easily understood by all, and in addition, Jayne's Medical Almanac and Guide to Health, to be had gratis of all Agents, contains besides a reliable Calendar, a Catalogue of Diseases, THE SYMPTOMS BY WHICH THEY MAY BE KNOWN, together with advice as to the proper remedies to be used.

All of Dr. D. Jayne & Son's Family Medicines are sold by

GUILD'S GREEN MOUNTAIN REMEDIES,

Green Mountain Asthma Cure, Green Mountain Kidney Cure.

I desire to call attention to the new, patented metallic box which is now used in putting up the **ASTHMA CURE**, and which presents the following advantages:

By its use the Cure is hermetically sealed, perfectly protecting it from the deleterious effects of air, light, and moisture, and preventing the evaporation of its most valuable qualities.

Its enlarged size and thin body enable me to increase the quantity of the Cure to nearly double the amount contained in the old style of wooden boxes. This gives my patrons the full benefit of the reduction in the cost of material, and makes this preparation *the cheapest Asthma Cure* in the market, where it has long held its position as *the Best*.

Read what the Princess Bismarck writes to our friend Dr. Abbot:

Berlin, Mar. 10, 1885.

Dr. F. P. ABBOT, Hausvoigte Platz 2:

*Honored Sir—I have absolutely no objection that Dr. Guild should state to the public how much good his **Green Mountain Asthma Cure** does me. I have recommended it, and sent it to many asthmatics. It has not, as yet, proved a radical cure in my case, but the relief which one decidedly experiences, immediately after using the CURE, can only be appreciated by those who know, by experience, the intense suffering attendant upon the disease. I could not live without a box of it, and to-day, again, beg you to send me one.*

*With the highest respect,
JOHANNA, PRINCESS BISMARCK.*

DAVIDSON SYRINGES.

Nos. 1 and 2.

PURE BLOCK TIN PIPES AND FITTINGS, WITH THE EXCEPTION OF THE VAGINAL PIPES, WHICH ARE HARD RUBBER.

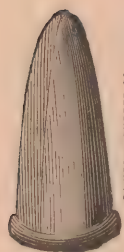

No. 4.

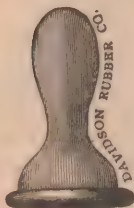

PURE BLOCK TIN FITTINGS AND ALL HARD RUBBER PIPES.

Our firm determination to keep up the standard of the **DAVIDSON SYRINGE** under all difficulties is meeting with the most gratifying results from the Trade, who inform us, after the experiences of the last five years with the many imitations of the Davidson style of syringe offered them by different manufacturers, that the **DAVIDSON SYRINGE** as always made by us occupies the same position as formerly; and that it has no equal in the world for its perfect construction and finish, purity of stock, durability, and the general satisfaction it gives to the public who have occasion to use an instrument of this kind.

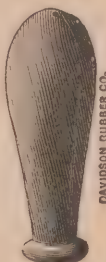

DAVIDSON NIPPLES.

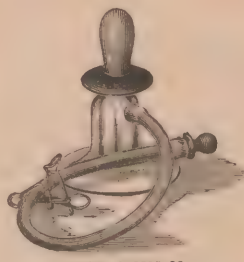

DAVIDSON RUBBER CO.

DAVIDSON RUBBER CO.

DAVIDSON RUBBER CO.

DAVIDSON RUBBER CO.

The demand for the Davidson Nipples is constantly increasing, especially our patent shape, which shows that the public appreciate a good article made from pure stock, and that can be used without fear of ill effects.

Our new **FEEDING BOTTLE** is made with rounded corners on the inside, so it can be easily kept clean, and, with our Patent Nipple, two of which are put up with every bottle, we offer to the public the healthiest and cleanest feeder ever produced.

The **DUPLEX SHIELD** will be found to fill a long felt want, as the mother can cause the milk to flow before the child commences to nurse, by placing the shield on the breast, compressing the nipple on the glass shield, and exhausting the air by the aid of the long tube. When the child is nursing, the long tube can be closed by the wire cut-off. It is also very convenient when traveling, as the child can nurse from a nipple placed on the end of the long tube, having previously closed the hole in the top of the glass shield with a stopper.

Professor Wood gives the following indorsement:

HARVARD MEDICAL COLLEGE LABORATORY, BOSTON, January 30th, 1885.

DAVIDSON RUBBER COMPANY:

Gentlemen—I have carefully tested the rubber nipples (black and white) received from you, and find them to be harmless. They may be taken into the mouth with PERFECT SAFETY, and cannot impart any injurious substances to the saliva. Respectfully yours, EDWARD S. WOOD, M.D., Prof. of Chemistry.

DAVIDSON PATENT ATOMIZERS.

DAVIDSON RUBBER CO.

No. 63.

These **ATOMIZERS** have been before the public for several years, and are pronounced by the leading physicians to be perfect. The Nos. 50 and 61 are made with Hard Rubber Tubes, with caps tipped with platinum, which makes an instrument that will not be effected in the least by anything that may be prescribed. The caps are made to screw on, so there is no liability of their coming off when in use. By a patent device, the end of the water tube is removable, which makes it very easy to clean the tube in case it gets stopped up. The No. 63 Atomizer we have put on the market for the convenience of sufferers from Nasal Catarrh, Hay Fever, &c. It is very compact and can be easily carried in the breast pocket, thus enabling the patient to apply the medicine at any time during the day while attending to regular duties. The bottle is small, and so constructed that every drop of the liquid is used, which is convenient, and economical where expensive prescriptions are used.

A properly selected herd of cows, strict attention to their feeding and care, personal attention, with an experience of ten years, devoted to the study of milk and the preparation of KUMYSS, entitle me to a claim of superiority.

KUMYSS is sold by all the leading druggists in New York City at \$2.50 per dozen pint bottles. Remember when ordering to specify **BRUSH'S KUMYSS**, and thus avoid the possibility of getting some worthless imitation.

Druggists who are careful of their reputation are advised to avoid the numerous and constantly increasing imitations of "Kumyss." I have made arrangements to keep Messrs. McKesson & Robbins constantly supplied with "Kumyss" in good condition.

Dr. McINTOSH NATURAL UTERINE SUPPORTER

THIS INSTRUMENT MEETS THE WANTS OF THE PROFESSION MORE PERFECTLY than any other Uterine Supporter ever made. *It never fails to give perfect satisfaction, even in the most difficult cases where any instrument can be used.*

The **ABDOMINAL PORTION** is a broad morocco leather belt with elastic straps to buckle around the hips, with concave front, so shaped as to hold up the abdomen.

The **UTERINE PORTION** is a cup and stem made of highly polished hard rubber, very light and durable, shaped to

fit the neck of the womb, with openings for the secretions to pass out, as shown by the cuts. Cups are made with extended lips to correct flexions and versions of the womb.

The cup and stem is suspended from the belt by two soft elastic rubber tubes, which are fastened to the front of the belt by simple loops, pass down and through the stem of the cup and up to the back of the belt. These soft rubber tubes being elastic adapt themselves to all the varying positions of the body and perform the service of the ligaments of the womb.

The instrument is very comfortable to the patient, can be removed or replaced by her at will, can be worn at all times, will not interfere with nature's necessities, will not corrode and is lighter than metal. It will answer for all cases of Anteversion, Retroversion, or any Prolapsus of the Womb. It is used by our leading physicians with never-failing success.

Anteversion. Prolapsus. Retroversion.

OUR REDUCED PRICE IS \$5.00 EACH.

Instruments sent by mail at our risk on receipt of price; or we can send by express C. O. D., with express charges for returning money added.

CAUTION. Owing to the great success of our Supporter, several worthless imitations have been made which are often substituted for our instruments, to the detriment of the patient and the disappointment of the physician. To protect our patrons from imposture, we stamp each pad of the abdominal belt in gilt letters, "Dr. McIntosh N. U. Supporter, Chicago, Ill."; the base of each cup is stamped "Dr. McIntosh N. U. S. Co., Chicago, Ill., U. S. A."

For further information in regard to the instrument address

CARL L. JENSEN,

SOLE ORIGINATOR OF

Pepsin in Scales.

Trade-Marked "CRYSTAL PEPSIN."

Always give your Support and Encouragement to the Honest Inventor.

FORMULA FOR SACCHAR. PEPSIN.

Jensen's Pepsin, 1 part.

Sugar of Milk, 15 parts.

Triturate the Pepsin by itself, and then mix with Sugar of milk; if triturated together a burnt odor will be developed.

The imitators advise large quantities of sugar of milk to be mixed with their imitations. Do not be deceived. Imitations have never superseded the article they imitate. They furnish positive proof of the worth of the article they counterfeit.

CLIPPINGS FROM AMERICAN ANALYST.

"The largest wholesale drug house in the world, that of GEHE & Co., in Dresden, Germany, have placed the weight of their influence on the side of JENSEN, by using his product to the exclusion of every other.

The Courts thus far have decided in the same direction, but a practical test will still further decide the matter. The same writer we have quoted before has made a partial test by the methods he has indicated. We quote his results without giving names before giving the results of the tests made in our laboratory.

It may be interesting in this connection to give a few of the results obtained by this process with some of the pepsins of the market.

The tests made by the *American Analyst* consisted of twelve samples of pepsin manufactured by six different firms. All of these were obtained at drug stores, and, after being emptied into clean glass bottles, were numbered from 1 to 12, and handed to two different chemists without any knowledge on their part as to the maker of any of the samples submitted. Their reports are as follows:

Number of grains of egg albumen in finely pulverized form dissolved by two grains of pepsin in six hours at a temperature of 100-103° F.:

Sample No. 1	18 grains.
" " 2	19.7 "
" " 3	nert.
" " 4	"
" " 5	508 grains.
" " 6	506 "
" " 7	2018 "
" " 8	2007 "
" " 9	174 "
" " 10	336 "

It is fair to add that specimens Nos. 7 and 8 were CARL JENSEN's crystal pepsin.

With these statements we leave the matter to be judged by the reader."

2039 Green St., - Philadelphia.

THE TRADE SUPPLIED BY McKESSON & ROBBINS.

THE PEPSIN WAR.

Its True Inwardness, and its Practical Interest
to the Medical Profession.

In the courts at law, and in the pharmaceutical and trade journals, there has been waged for some years what has been styled by the contestants "the pepsin war."

In the progress of this war, interesting facts have been brought to light regarding the true character of peptone pepsins; and the intelligent reading pharmacists have had a fresh illustration of the old proverb that "all is not gold that glitters."

We should like the medical profession also to know the truth about the pepsins of the market, and we believe that it will be profitable for the physician to investigate this subject.

The parties are, on the one side, a patentee of a peptone-pepsin; on the other a "Company" who are alleged to have infringed the patent right of the said patentee.

Both parties to these suits hold patents—one for converting the stomach or mucous membrane into solution, into peptone, by means of heat, acids and agitation, purifying the solution and drying on glass.

The other is practically for the same process, with the addition of Egg Albumen, which is also digested and converted into solution—Ergo into pepsin (?)

The only interest we have had or now have in this peptonic war, is this—

The word SCALES has been used in connection with these "peptone pepsins" in such a manner as to mystify and confuse the profession as to the real character of these products, as to the distinction between the widely different substances now sold and dispensed under the name of "scale pepsins."

The maker and patentee of the "peptone-pepsin" which has always been labelled and protected by the trade-mark title of "Crystal," now advertises himself as the "originator of Pepsin in Scales or Crystal Pepsin."

The word "or" makes it appear that "Crystal" pepsin and pepsin in scales are the same thing.

As makers of "pepsin in scales," we emphatically repudiate this assumption, this alternative which we think will not help the reputation of OUR pepsin.

*The article described in the U. S. patent specification as "PEPSIN WITH PEP-
TONIZED EGG ALBUMEN" has always been labelled and sold as "pure golden pepsin,"
free from every factitious matter."*

As the recognized originators and only makers of pure pepsin in scales, we seek only to maintain the individuality and good name of our product.

We do not try to advance the sale of Fairchild's pepsin as "the same thing," "just as good and cheaper" than so-and-so's.

Is it not a matter of common experience that there is always an ulterior object in such methods?

Is it not palpably in the endeavor to trade upon the reputation and title of superior products?

*WE HAVE, IN VIEW OF THE FOREGOING FACTS, FOUND IT NECESSARY TO ADOPT THE NAME "FAIRCHILD" AS THE DISTINCTIVE
TITLE OF THE PRODUCTS OF OUR FIRM.*

It is clearly to the interest of the patient, the prescriber, and the dispenser, that the word Fairchild should follow the word pepsin.

We have made the "Fairchild Digestive Ferments" mean pure and reliable digestive ferments, and in this way we have made our interests the physician's interests also.

Respectfully submitted,

FAIRCHILD BROS. & FOSTER,

LONDON, E. C., ENGLAND:

7, SNOW HILL BUILDINGS. 82 and 84 FULTON ST., NEW YORK.

Rock Candy SYRUP.

We would respectfully direct attention to an article that has now become almost indispensable to all Druggists, and particularly so to those running a Soda Fountain. During the past four years we have sold hundreds of packages of

DRYDEN & PALMER'S

DOUBLE-REFINED

Rock Candy Syrup,

And it has invariably given universal satisfaction. In its present concentrated form, it is more economical than sugar, not to speak of the great convenience of having a reliable Syrup ready to one's hand. Send your orders direct to us, and save freight. We keep the Syrup in barrels and halves, at Refiner's price, and we warrant it not to ferment.

BEWARE OF IMITATIONS,

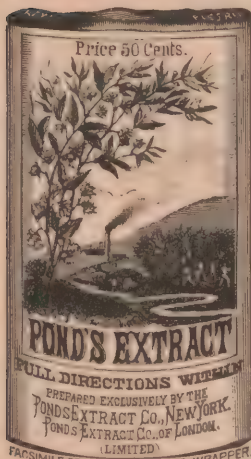

THE MARKET IS FLOODED WITH SUCH.

MANUFACTURERS OF THE CELEBRATED

McINTOSH GALVANIC, FARADIC and COMBINED GALVANIC and FARADIC BATTERIES

Table, Office and Family Batteries, Electrodes, Electric Bath Apparatus, Statical Electric Machines, Stereopticons, and Microscopes.

AWARDED THE GOLD MEDAL AT THE NEW ORLEANS EXPOSITION.

WE CALL SPECIAL ATTENTION TO OUR

Combined Galvanic and Faradic Batteries.

These Batteries have been adopted by the United States Government, for use in the Medical department of the Army and Navy

They are constructed on an improved plan. The zincs and carbons are fastened to hard rubber plates in sections of six each. The cells are composed of one piece of hard rubber, and are made in sections of six each with a drip-cup; thus one section can be handled, emptied and cleaned as easily and quickly as one cell. The drip cup is to receive the elements when the battery is not in use. This is the only battery in which the zinc and carbon plates can be kept clean and always in order by simply rinsing them.

All the metal work is finely nickel-plated and highly polished, and every part is put together so that it can be easily replaced by the operator. Our batteries weigh less, occupy less space, give a current of greater intensity and quantity than any other battery manufactured.

DECORATED PILL BOXES

For Quinine and Comp. Cathartic Pills.

These boxes are our $\frac{1}{2}$ oz. box in size, gold lacquered both inside and out, and name of contents handsomely lithographed on the covers. Being metal, they will not absorb the moisture in the pill, can be carried in the vest pocket without getting mashed, save trouble of labeling, and are more attractive and durable than paper boxes. Packed $\frac{1}{2}$ gross in a box.

LABELED.

1 doz. 2 gr. Quinine	per Gross, 80c.
1 doz. 3 gr. Quinine	per Gross, 80c.

VANILLINE CRYSTALS

(G. DeLAIRE & CO., Paris, or
HAARMANN & TIEMANN'S PATENT).

*These crystals possess the true aroma of the vanilla
beans, and, now that these are so dear,
should receive a trial from all
large consumers.*

One ounce of Vanilline Crystals, costing \$5.50, is in every way equal in flavoring strength to 2 lbs. of the best vanilla beans, which, at the present market price, are worth \$12 to \$16 per lb., showing, therefore, an outlay of \$5.50 against \$24 to \$32—a striking fact, which many of the leading houses have already taken advantage of, and which is worth the serious consideration of all manufacturers.

"CRYSTAL WHITE" DOUBLE DISTILLED AND REFINED

ESSENTIAL OILS.

Peppermint, Wormwood,
Spearment, Erigeron,
Tansy, Sassafras, Etc.

Attention of the Drug and Medical Profession is invited to the fact that the "Crystal White" brand of Double Distilled and Refined Essential Oils is now obtainable in original bottles of 16 ounces, 8 ounces, and 4 ounces each, every bottle being sealed with the following guarantee over the manufacturer's signature :

*The enclosed Product is
Guaranteed in every
Respect the highest
Quality and
ABSOLUTELY PURE*
A. M. Todd

THE ABOVE GUARANTEE IS FIRM AND POSITIVE.

Purchasers will please notice that all genuine containers have my name blown thereon, being also sealed with metallic caps similarly impressed, and resealed with the above engraved guarantee over my signature.

The manufacturer respectfully calls attention to the fact that, being the *most extensive producer of Oil of Peppermint in the world*, and controlling processes and apparatus for manufacturing economically the highest quality, his Essential Oils will be found *cheaper*, when the *quality* is considered, than any other brand, and are so guaranteed.

Owing to the extensive frauds recently unearthed, by houses of supposed respectability, purchasers should only use those Oils bearing the guarantee of makers whose ability and integrity are unquestioned.

THE TRADE SUPPLIED BY McKESSON & ROBBINS.

McKESSON & ROBBINS,

Manufacturing Chemists, New York.

The McK. & R. brand of Quinine, Cinchonidine and Morphine is extensively known, and can be guaranteed to be of assured purity and excellence.

We have been much gratified by the complimentary reports, regarding the appearance and quality of our Cinchona Alkaloids, received from both druggists and physicians.

McK. & R. Sulphate of Quinine.

WHITE IN COLOR. BEAUTIFUL IN CRYSTALLIZATION.

NINE-OUNCE BOTTLE REQUIRED TO HOLD ONE OUNCE.

The following test is attached to the label of every ounce of Sulphate of Quinine issued by us, and comparison of our Quinine may be made with any other brand in the market :

To test the purity of SULPHATE OF QUININE put one gramme of the Quinine into a tube with six grammes of Concentrated Sulphuric Ether, and two grammes Liq. Ammon., when the Quinine, if pure, will be entirely dissolved.

McK. & R. BI-SULPHATE OF QUININE.

Peculiarly fine crystals; should be prescribed in pills and powders in preference to the Sulphate, on account of its ready solubility, requiring only 10 parts of water instead of 740. Specify McK. & R.

Our BI-SULPHATE QUININE PILLS are about 10% LOWER THAN SULPHATE in price.

McK. & R. Sulphate of Morphine,

In 1-8 and 1 oz. Vials. Very White and Light.

LIEBIG COMPANY'S EXTRACT.

(*Extractum Carnis Liebig*).

For the Instantaneous Production of Beef-Tea.

INVALUABLE IN DYSPEPSIA AND ALL CASES OF
SICKNESS ACCOMPANIED BY WEAK STOMACH.

This is the **ORIGINAL** and **ONLY** Extract of Beef ever guaranteed as
GENUINE by Baron Liebig.

The public are respectfully cautioned against all imitation
Extracts, which, by all sorts of names and devices, are offered
for sale, and in many instances bought erroneously as the

COMPANY'S Genuine Extract.

The Public Analyst of London recently examined six samples
of extract of beef, and reported as follows: "The analysis of
the real Liebig extract is by far the most favorable. This extract,
the type of a pure meat extract, contains nearly one quarter of
its weight of flesh salts, almost one-quarter of which, again, is
phosphoric acid, combined with potash."—*British Med. Journal*,

ACROSS THE
LABEL.

DIRECTIONS.

Beef-Tea.—Efficient tonic in all cases of weakness and digestive disorder. Dissolve a quarter of a tea-spoonful of Liebig COMPANY'S Extract in a breakfast cup of boiling water, add plenty of salt; this will make a strong and clear beef-tea. You may add according to taste a tea-spoonful of Madeira, Sherry, or Port Wine, or the yolk of a fresh egg, or a trifle of fresh butter, or some bread, or a boiled potato. A slight addition of Worcestershire sauce is liked by many. This beef-tea acts as a pleasant tonic, especially when taken in the morning, and may well be taken several times a day.

Soups.—A variety of excellent meat and vegetable soups may be made with the aid of the Liebig COMPANY'S Extract, and any soup will acquire at once strength and flavor by a slight addition of Extract.

Vegetable Soup.—Potato, Pea, Rice Soup, etc. Boil the vegetables, etc., sufficiently with a little fat, a few bones or some slices of meat, or some fresh butter, add salt according to taste.

Sauces.—Both strength and flavor imparted by the Extract.

Night-Cap.—This beef-tea soothes and settles the stomach, allays brain excitement, and induces sleep.—"The most admirable and successful Night-Cap."—*Medical Press*.

THE MEDICINAL OLEATES.

McKESSON & ROBBINS.

These Oleates are true salts, prepared by combining the alkaloidal and metallic bases with *pure* Oleic Acid. The Purified acid is specially prepared in our own laboratory from the purest material, and is *free* from all *unpleasant odor* or *rancidity*. In ordering, specify McK. & R.

Any Oleate not mentioned here will be furnished if desired; and special quotations will be made for the following in specified quantities. Price net, including containers.

ACONITINE, (Duques.) 2% -oz.	2 50	BISMUTH, Precipitated	oz.	25
ACONITINE, (Merck's) 2% -oz.	50	COCAINE, Normal (50% Alk.) ½ oz.	1 50	
ARSENIC, Precipitated	25	COCAINE, 5% (in ⅓ oz. vials)		
ATROPINE, 2%	40	1.50 per oz.)	oz.	1 25

We were the first to offer these useful preparations of Cocaine, and we have seen no other Oleate Cocaine equal in quality to the McK. & R.

COPPER, 10%	oz.	25	IODOFORM, 2%	oz.	50
COPPER, 5%	oz.	20	IRON, Precipitated	oz.	25

This Oleate—being a true salt of iron—makes an excellent substitute for the old-fashioned strengthening plaster.

LEAD, 20%	oz.	20	MERCURY, 6%	oz.	20
LEAD, 10%	oz.	20	MERCURY, 5%	oz.	20
MANGANESE, 10%	oz.	75	MERCURY and MORPH.,		
MANGANESE, 2%	oz.	25	(Mercury, 20%, Morphine, 5%) -oz.	50	
MERCURY, 20%	oz.	30	MORPHINE, 10%	oz.	60
MERCURY, 10%	oz.	25	MORPHINE, 5%	oz.	40

McK. & R. Oleate Morphine (one of the most potent of the Oleates) is prepared as described above, and will keep for a long time, whereas an Oleate made with an inferior acid will become black in a few days, its appearance being thus impaired, if not its efficacy.

QUININE, 25%	oz.	60	QUININE, 5%	oz.	30
QUININE, 10%	oz.	40			

McK. & R. Oleate Quinine is very prompt in action; some of the best authorities stating that it produces the characteristic effects in half an hour.

STRYCHNINE, 2%	oz.	25	ZINC, Precip. and Powd.	oz.	25
TIN	oz.	25	ZINC, 10%	oz.	20
VERATRINE, 2%	oz.	30	ZINC, 5%	oz.	20
VERATRINE, 10%	oz.	75

THE COMBINED ADVANTAGES OF Quality, Convenience, and Economy

Are insured by the employment of the following

McK. & R. FLUID EXTRACTS

IN THE MANUFACTURE OF

TINCTURES and SYRUPS.

We give below a number of fluid extracts especially prepared for the convenience of the druggist in making tinctures, syrups, etc. They are made with the same care as our other fluid extracts, and will be found very convenient, while they will produce preparations fully equal to all the requirements of the U. S. Pharmacopœia. They make clear tinctures and syrups by simple admixture, no filtration being necessary.

In ordering from other houses, please specify "McK. & R."

The method of preparing both tincture and syrup is given on the label.

ALBOLENE.

We take pleasure in calling attention to this recent introduction, as an article that will meet, in the most satisfactory manner, many wants of the physician and pharmacist.

ALBOLENE is a carefully refined product from a peculiar species of petroleum, and possesses in an eminent degree all the properties which are required to constitute it

THE IDEAL BASE FOR Ointments, Cerates, Salves, Pomades, Etc.

- It liquefies at 110 to 130 degrees.
- Its soft, unctuous nature renders easy the uniform incorporation of the medicament.
- It is quickly absorbed.
- It is free from any definite chemical or physiological action, hence the most delicate ingredients may be incorporated with it without possibility of change.
- It is colorless and odorless, and will not become rancid.
- Its healing properties render it a valuable adjuvant to the active ingredient, particularly in applications to inflamed or abraded surfaces.

ALBOLENE answers all the pharmacopœial requirements of Petrolatum, and is vastly superior to this and other similar products, as it is absolutely

COLORLESS and ODORLESS,

And free from any possibility of becoming rancid.

—FOR—

Chafing, Sunburn, and Chapped or Fissured Surfaces

IT IS A SOOTHING AND AGREEABLE APPLICATION.
